

Appl. No. 10/076,718  
Amdt. Dated June 10, 2004  
Reply to Office Action of March 10, 2004

**REMARKS/ARGUMENTS**

Claims 1-16 and 26-29 are pending. Claims 1-16 and 26-29 have been rejected as unpatentable over various combinations of Gambill, U.S. Patent Number 5,250,893, Sirattz, U.S. Patent Number 5,103,165, Luebke, U.S. Patent Number 5,877,618, and Engel, U.S. Patent Number 6,265,865. In response to the rejection, and in view of a telephone interview with the Examiner on June 3, 2004, the Applicants have canceled claims 1-16 and 29 for purposes of limiting the issues for discussion.

In the telephone interview it was agreed that claims 26-28 were allowable over the cited references, as the references do not disclose or suggest combining a voltage tester and a non-contact AC voltage tester.

**Conclusion**

In view of the foregoing amendments and remarks, and pursuant to the telephone interview of June 3, 2004, the Applicants believe that claims 26-28 are in condition for allowance, and the Applicants respectfully request that a notice of allowance for claims 26-28 be issued.
